Can StockX explain this. I Got two different Gucci Ace Bees sneakers in my Box. If there's really an authentication team than this would've been checked. Or is the verified tag just a hoax. @stockx #GotItOnStockX #GotItFromStockX

Stockx sold me these for \$800 and refused to refund me #GottOnStockX #customerexperience

Why would they refund you? It's natural for that material. If you're unhappy grab a lint roller

If you can't pick up what's wrong in the picture, you're out of your league, my boy. This is the sneaker game, not video games. Some thoughts lose validity when you speak them.

Okay then if you're complaining about the toe cap of a mass produced shoe not being a perfect semi circle then you're even more clueless

My bad, should respect my elders, I'll leave you to continue publicly begging for a refund for another two months

Age and wisdom'll teach you that you could've done so all this time without revealing yourself to be an assclown.

Never seen a fake in size 15, yet somehow you guys always cancel my orders for failing verification. We all know you don't send them back to the seller, you just turn around and sell them for more.
